

As we continue to monitor the unforeseen situation that is present with the coronavirus (COVID-19) and associated illnesses, BoMar Heating & Cooling has developed this policy to maintain a safe and healthy environment for all team members, visitors, and customers.

BoMar Heating & Cooling wishes to ensure all customers that we have continuity plans in place to deliver uninterrupted service and support to customers as we navigate the uncertainty of COVID-19.

The BoMar Team

BoMar Heating & Cooling has implemented an extensive COVID-19 Policy accompanied by Temporary Risk Management Procedures. We have implemented additional sanitization and cleaning protocols in our office, warehouses, fleet vehicles and work locations. We have equipped field staff with necessary equipment to ensure safe working procedures in homes and businesses of our customers. All service technicians will be equipped with gloves, masks and disinfectant spray to use. We have increased options for remote work where possible. The policy and procedures set in place are largely precautionary and will be constantly monitored and adjusted. We also hope these add'l procedures will ease any concerns with our customers at this time.

The BoMar Plan

No employees showing symptoms of COVID-19 will be working while showing symptoms, and will not return until medically cleared. When setting up the appointment, the office/technician will describe the increased sanitary measures and confirm nobody at the location is experiencing symptoms of COVID-19, or has experienced symptoms within the past 48 hours. We encourage those who are well to keep their appointments, and respect customers who are ill or high risk and wish to reschedule. Every effort to reschedule appropriately will be made.

We ask all customers to respect the health and safety of our team and community. Should you be experiencing any symptoms, please contact our office right away to reschedule.

As we continue to monitor the situations, further communications may be updated.

Should you have any questions regarding this policy or wish to discuss the our COVID-19 practices, please contact Jason Rowland at 815-233-1622 or jrowland@bomarheating.com.

Thank you,

Jason Rowland
